Datalogic Mobile adds DLoG X vehicle mount computers

BOLOGNA, ITALY — Datalogic Mobile, a global leader in rugged mobile computing announces the addition of vehicle mount rugged computers to their product offering through a global OEM agreement with DLoG GmbH.

Datalogic Mobile is expanding their product offering by distributing DLoG X-series industrial computers as a part of the Datalogic Mobile R Series™ product portfolio. DLoG X-series vehicle mount computers are especially suited for demanding applications in extreme environments with operating temperatures from minus 22 to 122 degrees Fahrenheit (minus 30 to plus 50 degrees Celsius).

With touch screens, these VMT's are rated up to IP67 for dust and waterproofing in an aluminum housing with a fanless operation. Multiple screen sizes will be available including seven inch (X7), 10.4 -inch (X 10) and 12.1-inch (X12) models. Datalogic Mobile will distribute the high performance ARM architecture units under their own R Series brand name with the Windows-CE operating system. DLoG has found in Datalogic Mobile a long term stable partner for growing the distribution of their X-series products.

“Datalogic Mobile, a global player in the market for fully rugged mobile computers, is expanding their product portfolio with industrial computers developed and manufactured by DLoG allowing them to tap new target groups and regions,” explains DLoG CEO Hans-Peter Nüdling.

“DLoG is the ideal partner to expand our offering in the warehouse market and a natural complement to Datalogic Mobile's wide range of mobile computers,” says Francesco Montanari, vice president & general manager at Datalogic Mobile. The R Series product line is customized specifically for Datalogic Mobile. The customization includes distinctive software tools and will include the recently announced Wavelink Powered program.

Montanari adds, “This makes Datalogic Mobile the first manufacturer in the AIDC market to have Wavelink Terminal Emulation and Wavelink Avalanche pre-installed and pre-licensed on its entire warehouse product range.”

DLoG GmbH is the European market leader for industrial suited vehicle terminals for industrial applications. On the basis of our boards developed in-house, we guarantee customized solutions, integrated with high quality and long term secured support with regards to maintenance or system upgrades. Reliability is our first priority, especially with high environmental requirements such as humidity, strong temperature fluctuation or vibrations.

Datalogic Mobile, part of the Datalogic Group, is a global player in the Rugged Mobile Computer Market, offering a full range of products for warehousing solutions, field-force automation, and retail in-store. With our strong presence in EMEA, Americas, Asia/Pacific, and the powerful network of partners worldwide, Datalogic Mobile has had an impressive track record of growth. Datalogic Mobile is one of the fastest growing companies in the industry and a worldwide market leader.

Datalogic Group is the third largest world manufacturer and leader in Europe for bar code readers, rugged mobile computers, and RFID systems. Datalogic offers innovative business solutions, specifically in the retail, manufacturing, transportation and logistics markets. The Group is quoted on the techSTAR segment of the Italian stock exchange since 2001 as DAL.MI, with headquarters located in Lippo di Calderara di
